Low Season Special

Aloita Resort and Spa

8 full days of surfing and activity

US\$1200 nett

Includes transport and transfers ex-Padang (Sumatra Mainland)

Choice of more than 10 uncrowded waves and countless other aquatic activities!

As with Bali's wet season right handers, the Mentawai Islands harbor an array of small to medium sized waves in the 'off season' from October through February. Luckily this is still relatively unknown, and we generally enjoy surfing by ourselves throughout this period. But that's our secret!

Aloita is the only resort in the Mentawai Islands open all year round. In addition to the super clean waves of the low season, we also offer a range of activities in and out of the water including world class scuba diving and snorkeling, fishing, trekking, canoeing, beachcombing, and cultural excursions that will leave you astonished.

Back at the resort you will enjoy great Western and Asian cuisine, cold beverages and cable television at the expansive beachside bar, spa facilities and wireless internet 24/7.
